Highlights

Eliminates the problem of card carrying and password recall. Your ID which will identify you is on your fingerprint. However, passing can be resulted by the card and password if desired.

Recognizes fingerprint in less than 0.2 seconds and allows quick passing.

In card access systems, solidarity of swiping more than one person's cards commonly seem for a staff. The fingerprint recognition system is also 100% safe in this respect.

Thanks to Wiegand output, it works integrated with panel systems.

It can control the door, turnstile, barrier or other electronic devices by triggering with its internal relay.

Provides professional access control by making passing-schedule authorization on individual and group basis.

It can warn insiders by ringing the bell and melodies connected to the button on its front side.

Thanks to its small dimensions, it can be easily installed on door sills.

Technical Features

Password Capacity :	500		Incorrect rejection :	<0.0001%
Finger Print Capacity :	500		Operating Light :	0-10000LUX
Card Capacity :	500		Connection style :	Wiegand In&Out.
User Capacity :	500		Operating voltage :	DC 12V / 2A
Card Types :	125 kHz EM Proximity card.		Operating temperature :	0 - 40 degrees
Passing Types :	Fingerprint, Card, Password		Operating humidty value :	%20 - %80
Incorrect Acceptance :	<0.0001%		Dimensions :	88 x 88 x 35mm
