MP 12370 ID Lock System

After removing the handle and the locking mechanism from the wooden, plastic and metal doors, the door handles with fingerprints and the lock in the set are mounted to the front and back of the door.

The product is battery-powered and can be supplied with a passing energy for approximately 1.5 years based on 50 entry and exit circulation per day. In this way, no energy cables will be needed. It gives "battery low" warning in the last 100 passes near the end of the battery. Access can be done by fingerprint, card or password. In addition, entry and exit can be done with mechanical switch or remote control.

Technical Specifications

Material	Strong Zinc alloy	Resolution Ratio	500 dpi
Dimensions	270 x 65 mm	FRR	≤0,01%
Socket Type	5050 Small Size Type	False Rate	≤0.0001%
Power source	DC 4.8-6V	Silent Current	≤60uA
Missing voltage alarm	≤4.8V	Operating temperature	-20 ° C to + 60 ° C
Color as requested	Gold, silver and black	Operating Humidity	15% RH-90% RH
Fingerprint Sensor	Optical	Door Thickness	30-120mm (adjustable)
F.print , P.word ,Card Capacity	300 pieces in total	Unlocking Methods	Fingerprint, Smart Card, Password and Mechanical key
